PaperCut™ + ecoprintQ

RELEASE HIGHLIGHT GUIDE

# Upgrade your license to
# unlock powerful features

This is a high-level overview of the latest features in PaperCut MF.
For more details, ecoprintq.com/papercut/, or opt for an upgrade by purchasing PaperCut Maintenance & Support (M&S).

| | version *20 | version 21 | version 22 | version 23 |
|---|---|---|---|---|
| **Print security** | **Epic Print Connector*** – new Epic interoperability allows hospitals and healthcare providers to seamlessly integrate their existing systems with PaperCut | | | **Multi-factor authentication (MFA)** – MFA is now available for all admin and user web interfaces where Azure AD is used as the identity provider.<br>**Ongoing security hardening** – Improvements to password hashing, data encryption and a new 'Urgent Message' banner in the admin UI to make it quicker and easier to help customers stay ahead of emerging security threats.<br>**Increased privacy protection when using payment gateways** – Changes to the 3D Secure 2 authentication protocol now require collecting personally identifiable information during transactions to better protect against fraud. MF has been updated to ensure PID is not captured or persisted in any log files, regardless of log level used. |
| **Easy scanning & capture** | | **Scan to Fax** – send scanned documents via secure fax transmission (select MFD brands) | **Compression options for scanning** – select high, medium, or low document compression when setting up Scan Actions | |
| **Sustainability** | | | **Forest Positive printing with Grows** – transform print from a cost center and environmental footprint into a positive sustainability story | |

MF version 20 will reach end of life on 31 December 2023 for customers without current M&S, and on 31 March 2024 for customers with current M&S
