ecoprintQ

ecoRelease
Ethernet Converter

Numeric keypad

Proximity card reader

A high-performance network edge device designed to enhance secure print infrastructure without the need for embedded software*

Here's how it works:

Step 1: Print to the secure find-me print queue*.

Step 2: Authenticate at the printer using the ecoRelease device (card reader or keypad).

Step 3: Collect your print—securely released by ecoRelease at the printer!

*PaperCut Fast Release license required

APPLICATIONS

Corporate Offices: Secure print release* gateway for multiple printers across departments with find-me print application.

School Campuses & Universities: Manages authentication, usage tracking, and secure print for student and faculty printing stations.

Retail Chains & Remote Branches: Enables centralized print control while supporting on-site secure print and document workflows.

Healthcare Facilities: Supports secure printing and document routing between departments while ensuring patient data privacy.

Government & Legal Offices: Assists in managing sensitive print jobs, document logs, and device access for secure print release*.

SPECIFICATIONS

Dual Gbps Ethernet Ports

Dual USB Ports

Compatible with all readers

Quad-Core A53

1GB DDR4 RAM

Web Interface Configuration

WIFI (Coming Soon)

External storage up to 128GB

Power:	DC 5V / 2A
Dimension:	62.5 x 63.5 x 30 mm
Weight:	145g

*PaperCut Fast Release license required
